Headings:

All headings within this website will follow the same font (bembo) and the same color (gray/beige). They will all be around 30-50px font size, depending on what type of header is being called.

Body:

The body copy for each page will also the same pattern. Each will be the same color (mentioned earlier) and follow the same type (bembo serif font). The body copy will also keep the same font size and text color throughout every page.

Footer:

The footer will be static on each page. It will not change for any page! It will follow the same pattern using the Klint sans-serif font and the same color as the headings to make the page feel completed.

Copyright:

The copyright information will be slightly different from the footer. It will be smaller font size and a brighter color, making it less noticeable, but still legible. It will also be provided on every page in the exact same way.
